

MOLEKULE

A fundamentally new air purifier

\$100
OFF

OFFER ENDS
08/31/2017

The world's first molecular air purifier.

Molekule uses nanotechnology to break down and completely eliminate pollutants on a molecular level, while current air purifiers try to catch pollutants in filters. Allergens, mold, bacteria, viruses and airborne chemicals are completely destroyed by breaking them down.

Destroys, Doesn't Collect

—

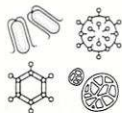

Fully eradicates pollutants instead of simply trapping them, so that nothing builds up on the filter.

Any Size

—

Destroys pollutants regardless how small, incl. those 1000x times smaller than what HEPA can collect

Full Spectrum

—

Only product that eliminates the full range of indoor pollutants, including VOCs and viruses

A woman with long blonde hair is sitting on a bed covered with white sheets. She is wearing a white tank top and is holding her right foot with both hands. The background shows a window with a grid pattern, possibly a balcony or a room with a large window. The overall tone is soft and minimalist.

L U N Y A

Staying in is the new going out.

#lifeinlunya | sleepwear for the modern woman | @lunya.co

It's time to get your sleep together.

*we're here to help...

The New York Times

"Lunya's robe is ideal for the woman who wants to look as good in casual repose as she does while out and about. Featuring a silver closure and deep pockets, this wrap is a glamorous answer to loungewear."

Forbes

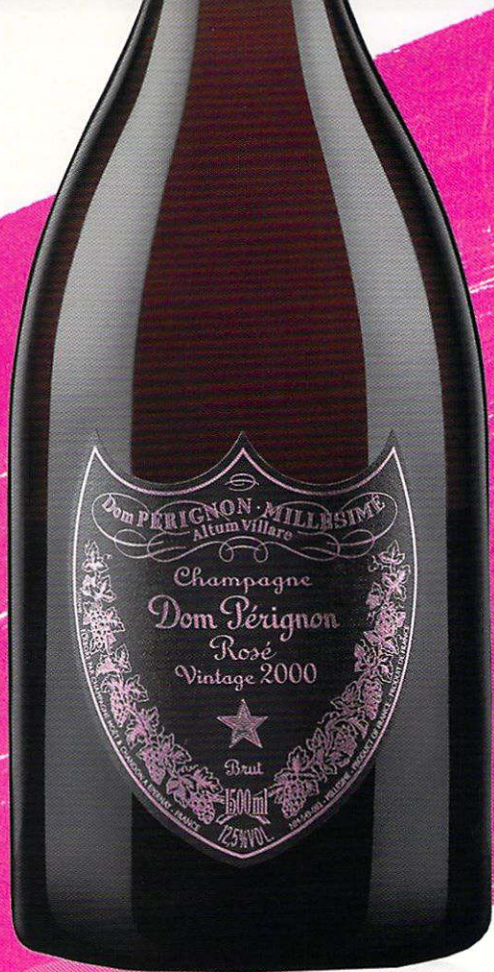

"Taking a problem-solving approach to design, Lunya focuses on blending technology with smart data, extensive studies and rare fabrics scientifically proven to enhance the sleep experience."

REFINERY29

"Aesthetics aside, what sets the brand apart is the use of breathable fabrics that help regulate your temperature while you slumber, no-friction flat seams to eliminate chafing, straps that won't fall off your shoulders."
